TALIMUDDIN

7654626537 talimuddin2000@gmail.com talimuddin-4725292b3 Talimuddin

Skills

Programming: Core Java, JavaScript
Frontend: HTML, CSS, Bootstrap
Backend: Spring, REST APIs
Database: MySQL
Core Concepts: Object-Oriented Programming (OOP)
Tools: Git, GitHub, Maven

Projects

CropGuard – Plant Disease Detection Web Application | *Java, Spring Boot, REST API, Gemini API, JavaScript, HTML, CSS, Bootstrap* | GitHub

- Developed a web application for plant disease detection using **Java, Spring Boot, and the Gemini API**.
- Built a diagnosis system that provides disease name, severity, treatment suggestions, medicine recommendations, and preventive measures from uploaded crop images.
- Created a **REST endpoint (`POST /analyze`)** with image upload, file type and size validation, and centralized JSON error handling.
- Implemented **multilingual support in 8 Indian languages** and text-to-speech to improve accessibility for farmers.
- Designed a responsive web interface using **HTML, CSS, JavaScript, and Bootstrap**.
- Secured the API key using environment variables and a Git-ignored configuration file.

Tic-Tac-Toe Game | *Java, OOP, Inheritance, Polymorphism* | GitHub

- Developed a console-based Tic-Tac-Toe game in **Java**, allowing a human player to compete against a computer opponent.
- Applied **object-oriented programming** using an abstract `Player` class and separate human and computer player implementations.
- Implemented **inheritance and method overriding** to support different player behaviors through a common abstraction.
- Developed game logic to validate moves, track board positions, detect winning combinations, and identify draw conditions.
- Implemented a computer opponent that selects valid moves randomly.

Experience

TAP Academy Jul 2026 – Present
Java Full Stack Developer Intern

- Undergoing structured Java Full Stack training covering **Core Java, OOP, DSA, MySQL, HTML, CSS, JavaScript, Spring, and Hibernate**.
- Practicing **problem-solving and Java-based coding** to build a strong foundation in object-oriented programming, data structures, and database management.
- Learning **backend development and frontend integration** to understand the complete lifecycle of Java Full Stack web applications.

SPRINT – School of Professional Studies and Information Technology Nov 2025 – Feb 2026
Software Engineering Intern *Hazaribagh*

- Completed a **12-week Software Engineering** training program.
- Learned **Software Development, Data Structures, Databases, Cloud Computing, and DevOps** fundamentals.
- Gained foundational knowledge of **Agile methodology** and collaborative software development practices.

Education

Guru Gobind Singh Educational Society's Technical Campus 2022 – 2026
B.Tech in Computer Science and Engineering *CGPA: 7.05* *Bokaro, Jharkhand*
